TECHNICAL RIDER NAVE L'ANIMAL

SPACE

Width 12 m Length 12 m Height 5.5 m up to the base of the structural trusses and bar grid.

Pine wood floor (Flanders pine) treated with natural oils, suitable for use barefoot or with non-marking shoes.

It is important not to spill liquids, not to hit the floor with heavy objects, not to use wheels that may mark the wood, and not to stick tape directly onto the surface as it may leave adhesive residue.

If anything special is required, please consult with the team to find suitable solutions.

5 strips of linoleum, 10 m long x 2 m wide / Black-white

6 strips of linoleum, 12 m long x 2 m wide / Black-white

Scenic background options:

Raw white cotton cyclorama 11 m wide x 5.50 m high

Anthracite PVC cyclorama 10 m wide x 7 m high

The ceiling of the space is equipped with a bar grid system covering the entire area.

Free Wi-Fi connection.

SOUND

1 Behringer Xenyx X2442 USB (10 ch balanced / 4 stereo channels / 4 aux sends)

1 Audio-Technica ATW-T52 microphone (wireless)

1 SM-58

2 microphone stands

Fixed base equipment of the studio:

4 DB Technologies LVX 10 400 W (speakers rigged to the grid, not movable)

2 DB Technologies Sub 12D 800 W

Other sound equipment:

4 DB Technologies LVX 10 250 W self-powered speakers

VIDEO

1 SANYO projector (2000 lumens) F:1.2–1.9

1 SANYO projector (2000 lumens) F:0.6 wide angle

These projectors are several years old and therefore their light output is low.
